PROFILE

Full-stack developer and third-year Computer Science student who ships real web applications with **Next.js**, **TypeScript** and **PostgreSQL**. Built and launched **two live platforms that businesses use every day**, from the database and REST API to a mobile-first UI. Strong backend focus, plus hands-on database administration experience. Open to junior full-stack and software engineering roles.

EXPERIENCE

Web Developer · Freelance 05/2025 – Present
Beirut, Lebanon

- Built and launched **First Step Academy**, a full-stack platform that runs a sports academy, **used by 120+ people**
- Built **UniGifts by Sahar**, an online shop the client runs every day, with **50+ visitors** and real orders
- Designed and deployed responsive websites for small businesses with HTML, CSS, JavaScript and React

Software Engineering Trainee · SE² (Software Engineering Excellence) 06/2026 – Present
Beirut, Lebanon · Mentored by senior engineer Sami Shameseldeen

- Weekly sessions on API design, authentication, validation and relational databases, applied in production work

Database Administrator Intern · Remote 01/2026 – 03/2026
